

**Amendments to the Specification:**

Please amend the Title of the invention, line 1 on page 1 as follows:

~~SEXUAL ENHANCEMENT DEVICE~~ NON-CONSTRICITIVE VIBRATION DEVICE

Please amend SUMMARY OF THE INVENTION, line 3 on page 4 as follows:

means can be provided that encircles and constrains a prescribed distal length of the lateral

Please amend SUMMARY OF THE INVENTION, line 2 on page 7 as follows:

stimulating device that is slideable slidable on a man's erect penis.

In SUMMARY OF THE INVENTION please add the following two paragraphs at the end of text on page 7 (beginning on line 7):

And another object is to provide a device that imparts vibrations to erect penises of various sizes without effecting constriction.

And even another object is to provide a stimulating device that encircles a man's penis during sexual activities without the risk of injury to the man.

Please amend Description of the drawings, line 29 on page 8 as follows:

Figure 13 is a 1/1 scale plan view of the loop portion of the device of Figure 1 showing a

Please amend Description of the Preferred Embodiments, line 28 on page 13 as follows:

1.0 inch and a perimeter 36 that is 6.3 inches. Figures 14, 15 and 16 illustrate at [[1/1]] 4//5

Please amend Description of the Preferred Embodiments, line 20 on page 15 as follows:

Figure 24 shows at [[1/1]] 4/5 scale a penis 4 with a girth of 5 inches positioned within

Please amend Description of the Preferred Embodiments, line 12 on page 16 as follows:  
reduce to a new perimeter 395. Accordingly, by installing a constraining ring having [[an]] a

Please amend Description of the Preferred Embodiments, line 23 on page 16 as follows:  
retaining/adjusting means comprising a plurality of grooves G1, G2, G3, and G4

Please amend the Title of the invention, line 1 on page 25 as follows:

~~SEXUAL ENHANCEMENT DEVICE~~ NON-CONSTRICITIVE VIBRATION DEVICE

**Amendments to the Drawings:**

Please replace Drawing Sheet 4/11 (Figure 13) with the enclosed new drawing sheet. The amended drawing is identical to the replaced drawing except it is at 1/1 scale as disclosed in Description of the Preferred Embodiments, line 26 on page 13.
